Systems & Interoperability Workshops

December 9-10, 2019 in Phoenix, AZ (Midwestern/Western Regional)

NAPHSIS is bringing something new to the membership this year by combining a topic specific event with regional meetings. Based on current topic areas of interest from our membership, jurisdictions are most interested in learning and networking with interoperability of systems in mind. These two-day events incorporate a day of half of presentations, demos and discussions on systems and interoperability, as well as, a half day region meeting.
